## The Story Behind Big Hollow Food Coop

When Medicine Bow Natural Foods went out of business in December 2007 a group of local citizens decided to buy some of the store's equipment and organize a steering committee to put a cooperative natural food store in the same location. With the overwhelming support of the community, we have successfully incorporated and put together a membership program in an incredibly short period of time. We opened our doors on September 19, 2007 without any bank debt and now boast 800 member households
